Java Language
There are 38 billion active Java Virtual Machines.

12 Million Developers Run Java.

Java is the #1 Development Platform

Oracle is the main contributor and steward of Java SE.
The “Java Community Process” decided to alter the Java SE Release Cadence to remain the #1 Development Platform position for the next 20 years.
You have successfully installed Java.

Important Information about Oracle Java SE Roadmap:

Changes are coming which will impact your access to future releases of Java SE from Oracle. **Corporate users will be impacted as soon as January 2019.** For additional guidance please follow the link below.

*More information on roadmap*

You will be prompted when Java updates are available. Always install updates to get the latest performance and security improvements.

Security Strategy

• Java is one of the pieces of the "Security" puzzle
• If the Java environment is not secure, your security problem has not been solved holistically
• If the focus is Java only and nothing else, then you still have a security problem
Java SE Subscription covers all active Java versions:
*please see slide of Java releases for active Java versions
## Java SE Desktop Subscription Pricing

<table>
<thead>
<tr>
<th>Volume</th>

Benefits for Java SE Subscriptions

- Security and critical updates for all Java environments
- Quick turnaround for critical issues with access to intermediate patches
- Efficient management, control and deployments of all Java versions installed on desktops and servers
- Reduced development and operational costs due to less migration and testing
